# **ANCAP Safety Rating:** HYUNDAI VELOSTER (January 2015 - onwards)

Frontal offset test at 64km/h

## This ANCAP safety rating applies to:

Make / Model	Hyundai Veloster
Year Range	January 2015 - onwards
Variant(s)*	All variants
Vehicle Type	Sports Car

The updated Hyundai Veloster was introduced in Australia and New Zealand in mid 2015. This ANCAP safety rating applies to all updated Veloster variants built from January 2015.

Dual frontal, side chest and side head airbags (curtains) are standard. Electronic Brakeforce Distribution (EBD) and Emergency Brake Assist (EBA) are also standard. Advanced seat belt reminders are fitted to both front seats.

### Injury Outcomes.

Test Results Summary.

Airbags	Dual Frontal, Side, Head
Frontal Offset Test	15.47 (out of 16)
Side Impact Test	16.00 (out of 16)
Pole Test	2 (out of 2)
Whiplash Protection	Good
Pedestrian Protection	Marginal
ESC	Standard
Seat Belt Reminders	2.0 (out of 3)
Overall Score	35.47 (out of 37)
ANCAP Safety Rating	****
Rating Year^	2013

## **Occupant Protection.**

#### **Frontal Offset Test**

Each body region is scored out of 4 points

Head / neck:	4.00 points
Chest:	4.00 points
Upper legs:	4.00 points
Lower legs:	3.47 points

The passenger compartment held its shape well in the frontal offset test. Pedal and steering wheel displacements were well controlled. Driver and passenger contact with the airbags was stable. All doors remained closed during the crash.

### Side Impact Test

Each body region is scored out of 4 points

Head:	4.00 points
Chest:	4.00 points
Abdomen:	4.00 points
Pelvis:	4.00 points

Good protection was provided for the driver in the side impact test. The side airbags performed well.

#### **Pole Test**

Scored out of 2 points Score: 2.00 points

The vehicle was eligible for a side pole test because it has side curtain airbags. The vehicle scored the maximum 2 points for head protection in this test.

### Whiplash Protection Test

Whiplash protection is assessed to the RCAR Protocol

Geometric test: Good Dynamic test: Good Overall whiplash rating: Good

# Head protection only

# ANCAP Safety Rating: **HYUNDAI VELOSTER** (January 2015 - onwards)

# Pedestrian Protection.

### **Pedestrian Test**

Scored out of 36 points	
Adult & child head impacts:	7.34 points
Upper leg impacts:	4.45 points
Lower leg impacts:	5.96 points

This vehicle scored 17.74 out of 36 points (Marginal). Protection provided by the bumper and front edge of the bonnet to the legs and pelvis of a struck pedestrian was Good or Marginal. In the area likely to be struck by the head of a child, the bonnet offered some Good protection but also some areas of Marginal and Poor protection. Protection for the head of a struck adult was predominantly Poor. The SR Turbo has similar pedestrian protection.

(Tested by Euro NCAP v5.3)

### Score Deductions.

Deductions from from Head / neck:	ntal offset test scores No deductions
Chest:	No deductions
Upper legs:	No deductions
Lower legs:	No deductions

Deductions from side impact test score Chest: No deductions

Deductions from pole test score Head: No deductions

### Safety Features & Technologies.

Descriptions of each of these safety features and safety assist technologies (SAT) and detail on fitting requirements for each star rating level can be found at **ancap.com.au**.

These specifications are subject to change. Please check with the manufacturer for the latest specifications.

**S** = Standard on all variants.

**O** = Optional on base variant. May be standard on higher variants.

V = Not available on base variant but standard or optional on higher variants.

**X** = Not available on any variant.

E = Available in Europe / USA but not available on any Australasian variant.

\* ANCAP safety ratings do not automatically extend to variants that have different body styles, engine configurations, driven wheels or occupant restraint systems (e.g. fewer airbags). In these cases, ANCAP considers technical evidence submitted by manufacturers before deciding on extending a rating to additional variants of a model. For further information about the application of ANCAP safety ratings to model variants, see the ANCAP Variant Policy.

^ The Rating Year denotes the year requirements against which a vehicle has been assessed. The Rating Year is determined by ANCAP and may be based on the year in which a new vehicle model is first launched into the Australian and/or New Zealand markets; the year in which the vehicle was tested (if tested by Euro NCAP); or, for vehicles which hold an existing ANCAP safety rating, the year in which the rating was updated (or earlier applicable year).

### Assessment Details.

Tested Make / Model	Hyundai Veloster 1.6 GDI GLS LHD
Tested Vehicle(s) Built	2011
Tested Body Type	Coupe
Tested Vehicle Kerb Weight	1240 kg
Tested Vehicle Engine	1.6 litre
Tested By	Euro NCAP
Assessed By	ANCAP
Document Reference	VELOSTER15
Document Created / Revised	12 May 2015
Rating Published	May 2015
Rating Updated	n/a
