Airbags	ESC	Frontal Offset	Side Impact	Pole	Whiplash	Pedestrian	Seat Belt Reminders	Overall Score	ANCAP Safety Rating
Frontal + Side + Head + Knee	Standard	15.87 (out of 16)	16.00 (out of 16)	2 (out of 2)	GOOD	ACCEPTABLE	2 (out of 3)	35.87 (out of 37)	★★★★★

The Skoda Octavia was introduced in Australia and New Zealand in November 2013. This ANCAP safety rating applies to all front-wheel-drive variants.

Dual frontal, side chest and side head airbags (curtains) and a driver knee airbag are standard. Antilock brakes (ABS), electronic brake distribution (EBD) and electronic stability control (ESC) are also standard. Many other safety assist technologies are available. Advanced seat belt reminders are fitted to both front seats.

In the offset crash test driver leg protection was acceptable. Protection was good for all other driver body regions and for the passenger in this crash test. Driver protection in the side impact was also good. Head protection in the side pole test was good.

OCCUPANT PROTECTION

Frontal Offset Test.

Each body region is scored out of 4 points

Head / neck:	4.00 points
Chest:	4.00 points
Upper legs:	4.00 points
Lower legs:	3.87 points

The passenger compartment held its shape well in the offset test. Pedal and steering wheel displacements were well controlled. Driver and passenger contact with the airbags was stable. All doors remained closed during the crash.

Side Impact Test.

Each body region is scored out of 4 points

Head:	4.00 points
Chest:	4.00 points
Abdomen:	4.00 points
Pelvis:	4.00 points

Good protection was provided for the driver in the side impact test. The side airbags performed well.

Pole Test.

Scored out of 2 points

The vehicle was eligible for a side pole test because it has side curtain airbags. The vehicle scored the maximum 2 points for head protection in this test.

Whiplash Protection Test.

Whiplash protection is assessed to the RCAR Protocol

Geometric test:	Good
Dynamic test:	Good
Overall whiplash rating:	Good

PEDESTRIAN PROTECTION

Pedestrian Test.

ACCEPTABLE - Scored 24.101 out of 36 points

Child head impacts:	8.48 points
Adult head impacts:	8.00 points
Upper leg impacts:	1.62 points
Lower leg impacts:	6.00 points

Protection of the head was generally adequate, with good areas towards the centre of the bonnet surface and some poor regions around the windscreen pillars. The protection provided by the bumper to pedestrians' legs was good but the front edge of the bonnet provided marginal or poor protection to the pelvic area.

* For information about the application of ANCAP ratings to model variants see the ANCAP Variant Policy. In brief, ratings do not automatically extend to variants that have different body styles, engine configurations, driven wheels or occupant restraint systems (e.g. fewer airbags). In these cases ANCAP considers technical evidence submitted by manufacturers before deciding on extending a rating to additional variants of a model.
